

## LEGAL EAGLE GATHERING - Northern California

Gathering of those interested in the Leonard Milholland's Legal Eagle and Double Eagles. There are many builders and flyers in our area and this is met to bring eagles together and share ideas, answer questions, motivate and create some camaraderie.

Legal Eagle the original Ultralight

Double Eagle 2 place LSA

Legal Eagle XL Ultralight

***Rio Vista Municipal Airport 088***

*Legal Eagle - best described as a slow Cub. A real flying machine.*

Check out the Rio Vista Airport Web site at: <http://riovistacity.com/airport-home/>

There will be flying Legal Eagles, Legal Eagle XL. Things to look at, rib building jigs, sample wing, questions answered. Lots of fun.

There are motels in town, about a mile away and limited camping on airport. Contact myself or Gerry Nolan at [gerrynolan@aol.com](mailto:gerrynolan@aol.com), 707-628-9987. There is an RV park in town, call ahead.

Rio Vista is next door to the Delta and a lot of Legal Eagle flying spaces. Great EAA chapter with lots of support. Several Legal Eagle and Double Eagle builders on the airport or close by.
